

WIKI is a division of Manteecorp.

OUR VISION

Our Vision is a unified approach to global telecommunication.

OUR MISSION

To create a dedicated global partner network.

We value excellence thru the optimization of passion, creativity, innovation and teamwork. And we pride ourselves in our trained and committed people.

This has enabled us leverage on economies of scale to deliver to you only the finest quality products at even lower prices. Our unbeatable and speedy service is due to the most part to our efficient systems, as Teamwork is highly prized in our organization and we realise we are only as strong as our weakest link. However, our success is credited to you, our customers who believed in us and have inspired us to break new frontiers in R&D and consistently improve our offerings.

Notably, we have succeeded with every decision based on a clear understanding of what we do, we couple this conviction with sound financial management and planning. We expect to achieve favorable and above industry average returns to ensure the prosperity of our company and to offer long-term benefits to you, our clients, employees and stakeholders.
